QWEL—The Qualified Water Efficient Landscaper

This is a co-sponsored program with Utah State University, UNLA-UtahGreen and, the Water Districts of Utah.

Through the Qualified Water Efficient Landscaper (QWEL) Program, local landscape technician professionals are making a positive impact towards reducing landscape water demand by becoming more water efficient in landscape design, maintenance, and operation. Becoming a QWEL-certified landscaper has its advantages. Those who complete the QWEL program will be part of a marketing campaign at no cost to the landscaper, inclusion on the Conservation Garden Park website and online promotions. Those who complete the QWEL program may qualify for EPA WaterSense Contractor status and become part of a national marketing campaign, receive the rights to utilize the QWEL and/or EPA WaterSense logos for promotion of your business. The QWEL program is given 4 times a year.

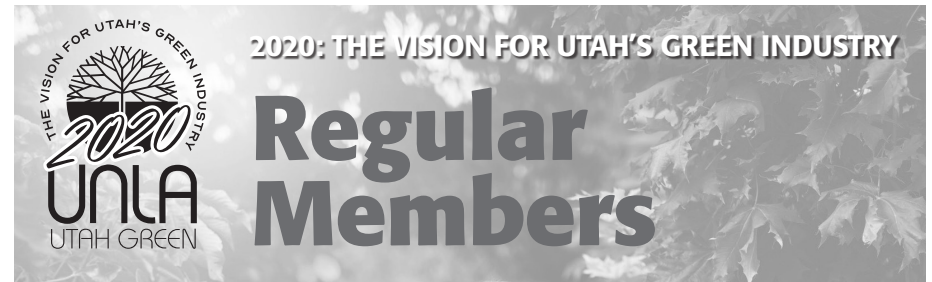

MEMBERSHIP IN THE UNLA is encouraged for any individual, firm, or organization engaged in any aspect of the Utah green industry. The numerous benefits of membership include training and education programs, the opportunity for certification, and public recognition as a professional.

The UNLA offers avenues for community involvement, publicity, legislative watchdogging, and a scholarship fund for horticultural higher education. Members also receive industry newsletters, social events, and get reduced fee access to the Green Industry Conference.

Most important, if you join the UNLA, it will help in the effort to promote professional business practices, as well as raise public awareness and interest in our products and this industry as a whole.

For information on joining this group, please contact the UNLA office at **801.424.9223** or visit our website www.utahgreen.org

This category shall be composed of licensed firms or organizations engaged in nursery and garden centers, landscape construction, turf producers, greenhouse production, maintenance, irrigation contracting, professional pesticide use, government agencies wanting voting rights, or any other related green industry in Utah.

2020: THE VISION FOR UTAH'S GREEN INDUSTRY

Utah Certified Nursery Professionals

The Utah Nursery and Landscape Association is proud to maintain the Utah Certified Nursery Professional program as an avenue to excellence in the green industry. Its purpose is to improve the skills and knowledge of people in the industry, and to reflect our commitment to giving the very best in service to the public.

The Utah Certified Nursery Professional (UCNP) program is intended to promote the knowledgeable professional nursery and landscape professional among us, giving them a competitive advantage in the marketplace. Green Industry employers give a great deal of credit for the efforts taken to pass the UCNP certification exam. If you are serious about your job and advancing your career in the nursery and landscape industry then you either are certified or will become certified, it is the easiest way to show the industry that you really know your stuff.
